OSHA Docket
Docket No. H-122
Room N-2625
200 Constitution Ave., N.W.

Dear Sir or Madam:

The proposal to ban smoking in all commercial establishments goes far beyond the necessary. Accomodation to both smokers and non smokers would not interfere with anyone's rights. Enough is enough. The bans thus far are crippling our tourist trade and one of the largest industries in the U.S., namely the tobacco industry.

It would seem to me that OSHA could better serve the public by forcing office buildings, aircraft and work places to provide better air quality and clean filtering systems; thereby eliminating bacteria and molds.

I respectfully request that OSHA direct it's attention to more serious matters such as hazardous waste, pesticides and controls over refineries and leave the smokers alone.

Sincerely,

A handwritten signature in cursive script that reads "Gail Vikse".
